## **173-VGG-3-48N | Utility Push-Pull Cable, Grooved, 3" Travel, 4' Overall Length**

\$52.85 USD

Quantity

- 3 +

Add to cart

Utility push pull cables are made with tough/durable materials including binder wire for structural integrity with long lasting seals that keeps them environmentally protected and withstanding temperatures between -65°F — 230°F.

Note: This cable is custom built and cannot be returned for credit or replacement unless there is a defect or the product you received does not match the product description on this page.

For an additional fee this cable can be shortened but not lengthened. Travel, conduit end fittings, duty and type of control cannot be altered.

NOT FOR USE ON AIRCRAFT!
